[Refer to a friend](#)

Mexico City, February 18, 2010— Expo Comm is the World's Leading Telecom and Broadband Technology event taking place in Mexico and is scheduled from February 23-25, 2010.

eScan will be exhibiting its latest advancements in the eScan range of products at EXPO COMM - stand no. 923. Built on the revolutionary technologies such as: MicroWorld Winsock Layer (MWL), Non-Intrusive Learning Patterns

(NILP), Real-Time Blackhole List (RBL), Spam URL Real-Time Block List (SURBL), eScan provides total protection to your [Computer System](#) even against zero day threats.

Mr. Govind Rammurthy, CEO & Managing Director of eScan, said "The advent of Web 2.0 and the large scale adoption of social networking sites have opened up several opportunities for the cyber criminals. Therefore, an information security solution such as eScan is very essential to deal with the ever increasing risk of malicious attacks. Since its launch in 2009, eScan version 10 has received a lot of accolades and awards, in-fact recently eScan has been awarded gold certification from AV Comparatives for excellent malware removal."

Sharing her views about this event, Mrs. Rohini Sonawane, Chief Operations Officer of eScan, said, "B3 FORUM, BROADBAND FOR BUSINESS powered by EXPO COMM is the international business forum created to explore the potential opportunities of the Broadband growth in Mexico. With some of the innovative features recently added such as Remote Support, Auto Back-up/Restore & USB protection, eScan is all set to capitalize this opportunity to increase its strength in Latin America."

"We met eScan at Expo Comm Mexico 2009, and undertook the exclusive distribution of eScan OEMs. eScan provides a wide range of solutions to cater to each & every segment of users; and with the feature of eScan Remote Support, it has become easier for us to provide the [technical support](#) to our customers. We look forward to this years' EXPO COMM to expand our Channel Network in Latin America" said Mr Jorge Duran, Commercial Director of SEGTIME.

About eScan

eScan, the world's first Real-Time Antivirus and Content Security software for [desktops](#) and servers is developed and marketed by MicroWorld. MicroWorld Winsock Layer (MWL) is the revolutionary technology underlying the eScan product range, and bringing it several certifications and awards by some of the most prestigious testing bodies, notable among them being Virus Bulletin, AV Comparatives, ICSA Labs, Checkmark and [PC Security Labs](#). Combining the power of various technologies, eScan provides Multilevel Real-Time Protection to [Computers](#) and Networks. Visit www.ecanav.com for more information.
