(1888PressRelease) March 04, 2010 - Panama - eScan, one of the leading Information Security solutions that provide proactive protection against virus, spam, trojan, and many other information security threats, announced its participation in Expocomer 2010 taking place at the famous Atlapa Convention Center in the Republic of Panama from March 3rd to March 6th 2010.

eScan will be exhibiting its latest advancements in the eScan range of products in Expocomer Panama 2010. Built on the revolutionary technologies such as: MicroWorld Winsock Layer (MWL), Non-Intrusive Learning Patterns (NILP), Real-Time Blackhole List (RBL), Spam URL Real-Time Block List (SURBL), eScan provides total protection to your Computer System even against zero day threats.

Sharing her views about this event, Mrs. Rohini Sonawane, Chief Operations Officer of eScan, said, "Expocomer is an ideal platform for eScan to showcase and present their services & technological expertise to the Caribbean, Central America and South America. At Expocomer 2010, we will be presenting the latest version of eScan with the new Windows Based Rescue Disk feature. This helps in creating a Rescue Disk to clean boot Windows PC, enabling users to scan and clean infected Windows systems from rootkits and file infectors that cannot be cleaned in the normal Windows mode."

"eScan range of security solutions offer complete security for all segments of users including Enterprise and SMB/SOHO segments. Coupled with innovative features like ERS(eScan Remote Support) and eScan Auto Backup/Auto Restore features, eScan is equipped to provide speedy support and proactive protection to customers based anywhere in the world. As Expocomer is one of the

important exhibitions for us so eScan is all set to capitalize this opportunity to increase its strength in Latin America" said Mr. Tiziano Arenare, President, ACS Systems & Network, CA.

About eScan

eScan, the world's first Real-Time Antivirus and Content Security software for desktops and servers is developed and marketed by MicroWorld. MicroWorld Winsock Layer (MWL) is the revolutionary technology underlying the eScan product range, and bringing it several certifications and awards by some of the most prestigious testing bodies, notable among them being Virus Bulletin, AV Comparatives, ICSA Labs, Checkmark and PC Security Labs. Combining the power of various technologies, eScan provides Multilevel Real-Time Protection to Computers and Networks. Visit [www.escanav.com](#) for more information.
