Built on the revolutionary technologies such as: MicroWorld Winsock Layer (MWL), Non-Intrusive Learning Patterns (NILP), Real-Time Blackhole List (RBL), Spam URL Real-Time Block List (SURBL), eScan provides total protection to your Computer System even against zero day threats.

Mr. Govind Rammurthy, \*CEO & Managing Director of eScan, said "eScan range of security solutions offer complete security for all segments of users including enterprise and SMB/SOHO segments. Coupled with innovative features like ERS (eScan Remote Support) and eScan Auto Backup/Auto Restore features, eScan is equipped to provide speedy support and proactive protection to customers based anywhere in the world."

Sharing her views about this event, Mrs. Rohini Sonawane, COO of eScan, said, "RSA is an ideal platform for eScan to showcase and present their services & technological expertise to the American market. RSA provides an opportunity for organizations to come together and display their latest developments and trends in information security. With some of the innovative features recently added such as Remote Support, Auto Back-up/Restore & USB protection, eScan is all set to capitalize this opportunity to increase its strength in America."
