eScan participates in RSA conference '10

India Infoline News Service / 14:33 , Mar 05, 2010

Built on the revolutionary technologies such as: MicroWorld Winsock Layer (MWL), Non-Intrusive Learning Patterns (NILP), Real-Time Blackhole List (RBL), Spam URL Real-Time Block List (SURBL), eScan provides total protection to your Computer System even against zero day threats.

eScan, one of the leading Information Security solutions that provide proactive protection against virus, spam, trojan, and many other information security threats, announced its participation in **RSA Conference 2010** taking place at the famous Moscone Convention Center in San Francisco from March 1st to March 5th 2010.

eScan will be exhibiting its latest advancements in the eScan range of products in RSA Conference 2010. Built on the revolutionary technologies such as: MicroWorld WinsockLayer (MWL), Non-Intrusive Learning Patterns (NILP), Real-TimeBlackhole List (RBL), Spam URL Real-Time Block List (SURBL), eScanprovides total protection to your Computer System even against zero daythreats.

Govind Rammurthy, CEO & Managing Director of eScan, said "eScan range of security solutions offer complete security for all segments of users including enterprise and SMB/SOHO segments. Coupled with innovative features like ERS (eScan Remote Support) and eScan Auto Backup/Auto Restore features, eScan is equipped to provide speedy support and proactive protection to customers based anywhere in the world. At RSA 2010, we will be presenting the latest version of eScan with the new Windows Based Rescue Disk feature. This helps in creating a Rescue Disk to clean boot Windows PC, enabling users to scan and clean infected Windows systems from rootkits and file infectors that cannot be cleaned in the normal Windows mode."

Sharing her views about this event, Mrs. Rohini Sonawane, Chief Operations Officer of eScan, said, "RSA is an ideal platform for eScan to showcase and present their services & technological expertise to the American market. RSA provides opportunity for organizations to come together and display their latest developments and trends in information security. With some of the innovative features recently added such as Remote Support, Auto Back-up/Restore & USB protection, eScan is all set to capitalize this opportunity to increase its strength in America."
