eScan Participates in RSA Conference 2010

NewswireToday - /newswire/ - **San Francisco, CA, United States, 03/03/2010 - eScan, one of the leading Information Security solutions that provide proactive protection against virus, spam, trojan, and many other information security threats, announced its participation in RSA Conference 2010**.

eScan, announced its participation in RSA Conference 2010 taking place at the famous Moscone Convention Center in San Francisco from March 1st to March 5th 2010.

eScan will be exhibiting its latest advancements in the eScan range of products in RSA Conference 2010. Built on the revolutionary technologies such as: MicroWorld Winsock Layer (MWL), Non-Intrusive Learning Patterns (NILP), Real-Time Blackhole List (RBL), Spam URL Real-Time Block List (SURBL), eScan provides total protection to your Computer System even against zero day threats.

Mr. Govind Rammurthy, CEO & Managing Director of eScan, said "eScan range of security solutions offer complete security for all segments of users including enterprise and SMB/SOHO segments. Coupled with innovative features like ERS (eScan Remote Support) and eScan Auto Backup/Auto Restore features, eScan is equipped to provide speedy support and proactive protection to customers based anywhere in the world. At RSA 2010, we will be presenting the latest version of eScan with the new Windows Based Rescue Disk feature. This helps in creating a Rescue Disk to clean boot Windows PC, enabling users to scan and clean infected Windows systems from rootkits and file infectors that cannot be cleaned in the normal Windows mode."

Sharing her views about this event, Mrs. Rohini Sonawane, Chief Operations Officer of eScan, said, "RSA is an ideal platform for eScan to showcase and present their services & technological expertise to the American market. RSA provides opportunity for organizations to come together and display their latest developments and trends in information security. With some of the innovative features recently added such as Remote Support, Auto Back-up/Restore & USB protection, eScan is all set to capitalize this opportunity to increase its strength in America."

About eScan
eScan (escanav.com), the world's first Real-Time Antivirus and Content Security software for desktops and servers is developed and marketed by MicroWorld. MicroWorld Winsock Layer (MWL) is the revolutionary technology underlying the eScan product range, and bringing it several certifications and awards by some of the most prestigious testing bodies, notable among them being Virus Bulletin, AV Comparatives, ICSA Labs, Checkmark and PC Security Labs. Combining the power of various technologies, eScan provides Multilevel Real-Time Protection to Computers and Networks. Visit escanav.com for more information.

About RSA Conference
RSA Conference is helping drive the information security agenda worldwide with annual industry events in the U.S., Europe and Japan. Throughout its 19 year history, RSA Conference has consistently attracted the world's best and brightest in the field, creating opportunities for conference attendees to learn about IT security's most important issues through first-hand interactions with peers, luminaries and emerging and established companies. As the IT security field continues to grow in importance and influence, RSA Conference plays an integral role in keeping security professionals across the globe connected and educated.
