## eScan Receives ICSA Certification

By [ChannelTimes Staff](#)

Mumbai, Jan 06, 2010 1338 hrs IST

MicroWorld's eScan information security product has received certification from ICSA Labs certification

The ICSA Labs' Anti-Virus Certification Program provides the user community with the assurance that all ICSA Labs Certified anti-virus products comply with industry-accepted criteria. To achieve the

ICSA Labs Anti-Virus Certification, products are required to detect 100% of the viruses in several test sets, including current "In The Wild List". eScan's testing was carried out on the Windows 7 platform.

Apart from this, eScan has also been mentioned in the annual report released by AV Comparatives. These reports choose annual winners from among the top scorers in various tests conducted during the year 2009. In case of malware removal, eScan was awarded the gold award and a bronze award in on demand PUA detection.

The amount of adware, spyware and other fraudulent software circulating on the Internet which are not typical malware are called "Potentially Unwanted Applications" (PUA).
