Mumbai,
Maharashtra, June
25, 2012 /[India
PRwire](#)/ -- eScan,
one of the leading
Anti-Virus and
Content Security
Solution providers
announces the

expansion of its channel partner network for SMB and Corporate segments in Belgium through their newly appointed partner Mylo Inc., providers of ICT expertise, solutions and services.

On this occasion, Mr. Sunil Kripalani, Senior Vice-President - Global Sales and Marketing, eScan, said, "According to Internet World Stats, April 2012, there were 8,489,901 internet users in Belgium (representing 81.4%

of the population) in December 2011, and this number is increasing day-by-day. Looking at the current scenario of IT cyber threats faced by large networks, security is the biggest challenge for them. These ever-evolving security threats that are caused by insiders as well as intruders severely affect business operations, its profitability as well as rapport with customers. eScan range of advanced security solutions are fit to fulfill the security needs of networks in such scenario. Our association with Mylo Inc. is a step ahead, in accordance to our expansion plans in Belgium to make eScan, the most preferred Anti-Virus amongst the IT users in the region."
