

For Immediate Release

One new distributor of eScan in Malaysia

Malaysia, Friday, April 29, 2011: Formis Systems & Technology Sdn Bhd (FST), an authorized value-added distributor of EMC storage, Unisys, and Allied Telesis networking solutions has signed a deal with MicroWorld Technologies Inc. for offering eScan range of solutions in Malaysia. eScan, one of the leading Information Security solutions will now be available through its newly appointed distributor FSI.

FST is one of the renowned distributors of storage management technologies, enterprise security and networking solutions, value-added partner, and solution partner and enterprise application provider. It also offers professional consultancy in areas of operations and performance to meet the market demand in the field of Information Technology. At present, FST has more than 400 resellers in its network. According to the IDC report as on April 20, 2011, with FST, the approximate growth in Asia/Pacific (excluding Japan) PC market grew 1% sequentially and 7% year-on-year in 2011 Q1 to reach 26.8 million units, while the Compound Annual Growth Rate for Malaysian Broadband market 2010-2015 is expected to be 19%. There's room for growth as it is believed that the Malaysian Broadband market will grow to MYR 3.5bn (USD 1.16bn) in 2011 from MYR 3bn in 2010

On the partnership deal with MicroWorld, Patrick lee, General Manager FST said, "The Antivirus market has been in the global market for a great number of years now, since the emergence of commodity computers, networking and peripherals in conjunction with the existence of cyber criminals. However, the market penetration of Antivirus software in Malaysia only gained serious consideration circa 10 years ago. We at FST truly believe that eScan, with its robust technology and unique features, is one of the leading Antivirus products in the market today that is able to and will indeed bring about serious competition in the antivirus industry . This coupled with eScan's competitive pricing, we at FST are optimistic that we would be able to penetrate Malaysia's market and be the leading antivirus distributor that offers an excellent range of antivirus products with the best pricing as well as support to our growing number of resellers."

About eScan:

eScan, the world's first Real-time Anti-Virus and Content Security software for desktops and servers is developed and marketed by MicroWorld. It is powered by innovative and futuristic technologies, such as MWL Technology, DIRC Technology, NILP Technology, and sophisticated Anti-Virus Heuristic Algorithms that not only provide protection from current threats, but also provides proactive protection against evolving threats. It has achieved several certifications and awards from industry's most prestigious testing bodies, notable among them being Virus Bulletin, West Coast Labs (Checkmark), ICSA and continues to get applauds. Combining the power of various technologies, eScan provides Multilevel Real-time Protection to Computers and Networks. Visit www.escanav.com for more information.

About FST

Anti-Virus
