eScan Participates in Asia IT Expo 2009

Submitted by editor on September 24, 2009 - 13:12

eScan, one of the leading Information Security solution that provides proactive protection against virus, spam, trojan, and many other information security threats is participating in the Asia IT Expo 2009, the IT hardware and software exhibition, to be held in Mumbai on 24th - 26th September 2009.

At the expo, eScan is exhibiting its entire range of security solutions for all market segments. Built on the revolutionary MicroWorld Winsock Layer (MWL) Technology and combined with multi layer protection, eScan provides total protection even against zero day threats. MicroWorld Winsock Layer (MWL) is a revolutionary technology developed by MicroWorld that works on the Winsock Layer and prevents all threats before they enter the user's system.

Speaking about the expo, Mr. Govind Rammurthy, CEO & Managing Director of eScan, said "The PC penetration in India is growing at a lightening speed and computer adoption in everyday usage makes it mandatory for people to be aware about its security. With the increase of time spent online and use of internet for networking and other transactions, users need to be a level ahead of the cyber criminals to ensure safety of their personal information."

He further added, "eScan range of security solutions offer complete packages for all segments of users including enterprise and SMB/SOHO segments. Coupled with our latest ERS (eScan Remote Support) and eScan Auto Backup/Auto Restore features, eScan is equipped to provide speedy support and proactive protection to customers based anywhere in the world."

Mr. Sunil Kripalani, Vice President - Global Sales & Marketing, eScan, sharing his views said, "Asia IT Expo is a perfect platform to showcase eScan and its range of security solutions. The expo will provide us with an opportunity to bring the brand closer to our partners and consumers and build new relationships while strengthening existing ones."
