eScan, the leading Information Security packaged software solution from India that provides proactive protection against virus, spam, trojan, and many other information security threats, is ushering this new year with an exciting offer for their customers. Customers who purchase eScan during the offer period get a chance to win amazing prizes.

To participate in the offer, a customer will have to buy either of the following products of eScan:

eScan AntiVirus Edition
Scan Internet Security Suite
eScan AntiVirus Edition for SMB
eScan Internet Security Suite for SMB

After buying one of the above mentioned products, the customer will have to install eScan and activate it within January 15th 2010. After activating eScan, customers have to register on <http://www.mwti.net/newyearoffer> before January 15th 2010 to validate their purchase.

The lucky draw will be conducted on January 22nd 2010 and the winners will be intimated by email. Winners of the lucky draw can win exciting prizes like high range laptop, smart mobile phones, trendy wrist watches, iPods, etc.

The terms and conditions of the offer is available at <http://www.mspl.net/events/schemetermsandconditions.asp>

Speaking on this, Mr. Govind Rammurthy, Managing Director and CEO of eScan said, "We take this opportunity to thank & reward our customers who have been an integral part of our success. We will keep innovating our solutions to suit the ever changing security needs and provide a secure and safe computing experience for all our customers. We wish all our customers a happy, prosperous and secure New Year."

eScan version 10, which was launched earlier this year, has won several awards, international and domestic and has received acclaim from various prestigious testing bodies of the IT security industry such as VB100%, AV Comparatives, PCSL and many more.
