## eScan Launches Its Security Solution To Secure Mac Users

[EFYTIMES.COM](#) | Tuesday 3 July, 2012

Tuesday, July 03, 2012: eScan, one of the leading Anti-Virus and Content Security Solution providers has launched its latest offering for Mac users, eScan Anti-Virus Security for Mac. Traditionally, Macs are believed to be less vulnerable to cyber attacks. However, similar to Windows OS, the recent developments show that with its growing usage, ...
