

eScan ends 2010 with a bang.

Wins VB100%, AV-Comparatives Advanced +, Visitors choice award at CMDA Expo, Pune, India and is voted as the 2010 Best Internet Security Suite for SMBs at VARIndia awards

Mumbai, 20th December 2010: eScan the world's leading anti-virus solution providers has won a plethora of awards for its eScan range of Anti-Virus and Information Security solutions. eScan has been winning the VB100% and AV-Comparatives awards on a continuous basis. These awards are from renowned Independent testing bodies that undertake strenuous test on the products before awarding them.

In the AV-Comparatives December 2010 performance tests, eScan topped the PC Mark Score sheet amongst 20 Anti-Virus Vendors with a score of 97 points. The AV-Comparative performance test is a real metric of the performance of Anti-Virus solutions as it replicates the real life scenario of the impact of using an Anti-Virus solution on a computer during file copying, playing movies or music, downloading files from the internet, installing / uninstalling / launching of an application, etc.

In the VB100% tests for December 2010, John Hawes (Technical Consultant & Test Team Director) the Editor of VB100% commented that the eScan interface is fancy and stylish, with Mac-style icons which enlarge on mouse rollover, but under the hood a splendid level of configuration controls are provided to satisfy even the most specialist of requirements. eScan did not have any issues in the Wildlist and the RAP tests and earned another VB100% for its detection.

eScan also won the The VARIndia award for being voted as the “**Best Internet Security Suite for SMBs**” and the award was presented to eScan by Dr. Gulshan Rai Director General of ICERT, Ministry of Information Technology, Government of India. This award is the recognition for quality of eScan products by the Indian channel community. eScan also won the “**Visitors Choice Award**” during its participation in the CMDA Expo held during Dec 2010 at Pune.

Mr.Govind Rammurthy, CEO and Managing Director, eScan said, “We would like to take this occasion to thank and wish all our customers, channel partners and our media partners a Safe, Secure, Prosperous and a very Happy New Year 2011. We are very happy to have ended 2010 on such a great note and we will strive very hard to continue this momentum forward in 2011 by coming with products that are user friendly and offer advanced Information Security to our customers. The fact that eScan managed to pip a large number of competitors, speaks volumes about the quality of our products. “

About eScan

eScan 11, the world's first Real-time Anti-Virus and Content Security software for desktops and servers is developed and marketed by MicroWorld. It is powered by innovative and futuristic technologies, such as MWL Technology, DIRC Technology, NILP Technology, and sophisticated Anti-Virus Heuristic Algorithms that not only provide protection from current threats, but can also provide proactive protection against evolving threats. It has achieved several certifications and awards from some of the most prestigious testing bodies, notable among them being Virus Bulletin, AV-Comparatives, West Coast Labs (Checkmark), ICSA, and PCSL labs. Combining the power of various technologies, eScan provides Multilevel Real-time Protection to Computers and Networks. Visit www.escanav.com for more information.
