

[Computer & Technology](#)**eScan rewards its partners with a scintillating Singapore trip**

2011-01-31 13:22:30 - eScan, one of the leading [Security Solution](#) providers and the World's first Real-time Anti-[Virus](#) and Content Security Solution developer has rewarded its channel partners with amusing rewards.

Channel Partners associated with eScan the world's leading anti-virus solutions provider have had an amazing time enjoying the sights around Singapore.

Mr. Satyawan Sharma, Scomio Systems, Ghaziabad, one of eScan's Channel Partners who was a part of the team shares his exhilarating experience by quoting that his trip by SOTC sponsored by eScan in Singapore was really fantastic, enjoyable

and an ultimate trip where all the arrangements given by eScan management to its channel partners were beyond expectation.

Say's Mr. Akash Verma, Akash Varma, Computer Links, Gurgaon, in a 3 days' 2 nights' trip to Singapore which included sight-seeing of major tourist attractions like Sentosa Island, City Tour and the famous Merlion, eScan's 106 partners enjoyed a fully expense paid trip that included gala dinner parties as well.

Mr. Anil Gupta, Head National Sales, eScan said, "Our partners and associates have always been very important for us and this was one way in which we could reciprocate our gratitude to them. eScan has always kept its associates at the forefront of all initiatives."

About eScan

eScan, the world's first Real-time Anti-Virus and Content Security software for desktops and [servers](#) is developed and marketed by MicroWorld. It is powered by innovative and futuristic [technologies](#), such as MWL Technology, DIRC Technology, NILP Technology, and sophisticated Anti-Virus Heuristic Algorithms that not only provide protection from current threats, but can also provide proactive protection against evolving threats. It has achieved several certifications and awards from some of the most prestigious testing bodies, notable among them being Virus Bulletin, AV-Comparatives, West Coast Labs (Checkmark), ICSA, and PCSL labs. Combining the power of various technologies, eScan provides Multilevel Real-time Protection to Computers and Networks.
