eScan, a **security solution** provider, today announced that it has rewarded its **channel partners** with amusing rewards with a trip to Singapore.

The company stated that it has selected 106 **partners** for this fully expense paid trip that included gala dinner parties as well. The 3 days' 2 nights' trip included sight- seeing of major tourist attractions like Sentosa Island, City Tour and the famous Merlion.

"Our partners and associates have always been very important for us and this was one way in which we could reciprocate our gratitude to them. eScan has always kept its associates at the forefront of all initiatives," opined **Anil Gupta**, head national

sales, eScan
