

## For Immediate Release

### **eScan says that its version 11 products for Corporate and SMBs that debuts at CeBIT 2011 will be a Game Changer in Network Security**

Mumbai, Friday February 18, 2011: eScan, one of the leading Security Solution providers and the World's first Real-time Anti-Virus and Content Security Solution developer will launch the Version 11 of eScan Corporate Small and Medium Business (SMB) Editions at the CeBIT 2011. CeBIT is the digital industry's biggest international event and is held at Hannover, Germany from 1st march 2011 to 5th march 2011.

Following the successful launch of the Small Office and Home Office editions of eScan version 11, the Corporate and SMB Editions of eScan are all set to change the dynamics in Information Security for networks in both Enterprises and SMBs. Power packed with technologies that can provide protection to networks even from the next generation threats, the feature rich eScan 11 for Corporate and SMBs has been developed to be very light on system resources.

Some of the technologies that make eScan one of the most preferred network security solutions are MWL Technology, DIRC Technology, NILP Technology and sophisticated Anti-Virus Heuristics Algorithms that provides Zero Day Protection to both servers and endpoints. The new secure web Interface facilitates dynamic security management of the network endpoints by the administrators. Some of the new features available in version 11 of the Corporate and SMB Editions include preventing Network Outbreaks, Data theft, Identity theft and Security violations. eScan 11 also Some of the additional benefits of deploying eScan 11 in Corporate and SMBs includes reduced IT costs with better Integrated Security Management through File Reputation Services, ADS integration and Support for VMware, SYSLOG, SNMP and NAC/NAP.

"The current times have increased the expectations and demands from network security software due to the highly evolving threat scenario." says Mr. Govind Rammurthy, MD & CEO, eScan who will also be visiting CeBIT 2011. He added that "In Version 11 of the eScan Corporate and SMB Editions, we have factored the attack vectors and methods of future breeds of Malware as well as have power packed it with technologies that can counter them. We have also ensured that eScan 11 is very light on the system resources and does not compromise on the speed of the client systems."

Mr. Sunil Kripalani, VP Global Sales & Marketing, eScan Says, "We are proud to have reached a new milestone in Information Security with the new version of eScan 11 for Corporate and SMBs. Unveiling our latest innovations at CeBIT 2011 will help us to demonstrate the capabilities of eScan 11 for Corporate and SMBs to the global audience base visiting CeBIT. We are also looking forward to connect again with our partners and introduce to them the new eScan 11 editions. Our participation at CeBIT will result into a winning proposition for us as we will get to demonstrate the new and advanced features of eScan 11 for Corporate and SMBs Editions to prospective partners and customers".
