eScan Achieves Microsoft Gold Partner Status

By [ChannelTimes Staff](#)

Mumbai, Nov 18, 2009 1336 hrs IST

In recognition of its strategic role and impact on the security industry, Microsoft has named eScan its Gold Certified Partner.

This certification is based on customer endorsements and loyalty to Microsoft suite of products. Other key contributors to this certification

were certification of eScan in Vista, Windows 7 and having many Microsoft-certified professionals as part of their team.

Microsoft Gold Certified Partners are the elite Microsoft business partners who earn the highest customer endorsement.

"Getting the highest level of certification from the world's largest software vendor reiterates our determination and capabilities in providing cutting-edge security solutions to our customers. This partnership will help us in delivering faster solutions for upcoming Microsoft technologies too," said Govind Rammurthy, CEO & MD, eScan.

Rohini Sonawane, COO, eScan, added, "Being a part of the select Gold circle, makes us proud of our accomplishment and we are looking forward to accomplishing many more certifications."

Gold Certified Partners represent the highest level of competence and expertise with Microsoft technologies, and have the closest working relationship with Microsoft.
