India Infoline News Service / 04:11 PM , Nov 18, 2009

**As a Microsoft Gold Certified Partner, eScan has demonstrated its expertise with Microsoft technologies and proven its ability to satisfy the needs of its customers**

eScan, a leading Information Security solution that provides proactive protection against viruses, spam, trojan, and many other information security threats, is now a Microsoft Gold Certified Partner. eScan has earned the Gold Certificate in Microsoft's Partner Program in recognition of its expertise, strategic role and impact on the

security industry. As a Microsoft Gold Certified Partner, eScan has demonstrated its expertise with Microsoft technologies and proven its ability to satisfy the needs of its customers.

eScan has time and again proved its product quality and consistency by winning several acclaimed awards and certifications. Having won this certification based on high customer endorsements shows the high level of customer satisfaction and loyalty that eScan has. Other key contributors to this certification were certification of eScan in Vista, Windows 7 and having many Microsoft Certified Professionals as part of their team.

Microsoft Gold Certified Partners are the elite Microsoft Business Partners who earn the highest customer endorsement. They have the knowledge, skills, and commitment to help implement technology solutions that match exact business needs. Gold Certified Partners represent the highest level of competence and expertise with Microsoft technologies, and have the closest working relationship with Microsoft.

"First, we would like to thank our customers, who have endorsed us for this certification. Getting the highest level of certification from the world's largest software vendor reiterates our determination and capabilities in providing cutting edge security solutions to our customers. This partnership will help us in delivering faster solutions for upcoming Microsoft technologies too." explained Mr. Govind Rammurthy, CEO & Managing Director, eScan.

Mrs.Rohini Sonawane, Chief Operating Officer of eScan, who played an instrumental role in obtaining the certification added, "These certifications drive us to develop innovative technologies that can help our customers secure their desktops and networks in this ever expanding threat scenario. Being a part of the select Gold circle makes us proud of our accomplishment and we are looking forward to accomplishing many more
