(1888PressRelease) **August 20, 2009** - MicroWorld the highly acclaimed AntiVirus and Content Security solution provider signed a partnership deal with the South American company ACS Systems & Network, CA as its exclusive distributor of Venezuela. ACS Systems & Network, CA will be the exclusive distributor for MicroWorld's entire range of products in Venezuela and the company will also be distributing MicroWorld range of products in Panama, Costa Rica, Colombia, Argentina, Netherlands Antilles, Jamaica, Bahamas, Trinidad And Tobago, Aruba, Dominican Republic and Puerto Rico.

Speaking on this partnership Mrs. Rohini Sonawane, COO of MicroWorld Technologies, said "With ACS Systems & Network CA's vast experience and expertise in information security solutions we will be able to reach to a wider audience in Central and Latin American countries. Our eScan range of products will compliment ACS Systems & Network CA existing range of products."

Adding to it Mr. Govind Rammurthy, CEO & Managing Director of MicroWorld, said "eScan version 10 is equipped with unique features to provide multilevel protection against all information security threats. With the rise in information security threats, a product such as eScan will best suit the requirements of the end users in South America."

"ACS Systems & Network, CA participated in the Macrosoft Inversiones where we unveiled the eScan range of products. This event was held between 17th June 2009 and 20th June 2009 in Caracas, Venezuela. The event was a grand success, where eScan range of products received an overwhelming response and we hope to make eScan as the top three information security solution in Venezuela." said Mr. Tiziano Arenare, President, ACS Systems & Network, CA

About MicroWorld

MicroWorld (<http://www.mwti.net>) is the developer of the world's first Real-Time AntiVirus and Content Security software eScan for desktops and servers. MicroWorld Winsock Layer (MWL) is the revolutionary technology underlying the eScan product range, and bringing it several certifications and awards by some of the most prestigious testing bodies, notable among them being Virus Bulletin, Checkmark, TUCOWS, Red Hat Ready, and Novell Ready. Combining their powerful scanner with MWL technology, MicroWorld solutions provide a Real-Time Proactive security to the computer systems. MicroWorld's communication security software, MailScan is the first comprehensive email scanner for SMTP and POP3 Mail Servers. For network security of enterprises, eConceal Firewall is the powerful offering from MicroWorld.
