(1888PressRelease) **August 20, 2009** - Segtimex is also the exclusive OEM partner and will also offer SMB and Corporate solutions through its extensive partner network in Mexico.

Speaking on this partnership Mrs. Rohini Sonawane, COO of MicroWorld Technologies, said "With SEGTIMEX S.A de CV's experience of 15 years in selling security software products and also with the help of their extensive reseller network, we will be able to reach to a wider audience in Mexico and Central America. Our eScan version 10 offers many new and improved features that provide proactive protection against the fast evolving Information Security threats."

Adding to it Mr. Govind Rammurthy, CEO & Managing Director of MicroWorld, said "With the growing number of information security threats, the need for a complete security solution is growing. Our eScan version 10 is equipped with unique features that provide all round protection from various Malwares and other information security threats."

"We met MicroWorld at Expo Comm 2009, Mexico, where we undertook the demonstration of eScan. By looking at the features and the working of eScan, we undertook the exclusive distribution of eScan OEMs. We are also participating in the Foro Infochannel Tour 2009 which is a channel based road show. Mrs. Rohini Sonawane the COO of MicroWorld Technologies Inc and Mr. Agnelo Fernandes the Technical Head will be present on 24th July at Mexico and will address about 400 attendees." said Mr Jorge Duran, Commercial Director of SEGTIMEX.

About MicroWorld

MicroWorld (<http://www.mwti.net>) is the developer of the world's first Real-Time AntiVirus and Content Security software eScan for desktops and servers. MicroWorld Winsock Layer (MWL) is the revolutionary technology underlying the eScan product range, and bringing it several certifications and awards by some of the most prestigious testing bodies, notable among them being Virus Bulletin, Checkmark, TUCOWS, Red Hat Ready, and Novell Ready. Combining their powerful scanner with MWL technology, MicroWorld solutions provide a Real-Time Proactive security to the computer systems. MicroWorld's communication security software, MailScan is the first comprehensive email scanner for SMTP and POP3 Mail Servers. For network security of enterprises, eConceal Firewall is the powerful offering from MicroWorld.
