**Australasia** 

October 27, 2009 / India PRwire/ -- eScan, one of the leading Information Security solution that provides proactive protection against virus, spam, trojan, and many other information security threats, is one of the exhibitors at Business InSight 2009 on October 28th, 2009 in Dearborn, Michigan.

Business InSight 2009 is a conference where all the small business owners, entrepreneurs and business leaders of Michigan have the opportunity to interact with more than 300 successful CEOs and decision makers. It is an enormous platform where business leaders build new relationships and learn new tactics to stay ahead in the economic front.

Speaking on this occasion Mr. Govind Rammurthy, Managing Director & CEO of eScan, said "Business continuity with security is a major concern for every business leader as there is a perceived gap between requirement and implementation. This conference will be a great opportunity to understand the pain points faced by the small business owners and also showcase our latest innovation in our eScan range of Information Security Solutions.‮

Mrs. Rohini Sonawane, COO of eScan, said "Our eScan version 10 is equipped with new and advanced features to match today's business needs and provide corporate level security to small businesses. Business Leaders and entrepreneurs are still unaware about the importance of information security in their businesses. Business InSight 2009 will be the best medium to introduce our product and educate them about the need to implement the right information security solution in their businesses.‮

#### **Notes to Editor**

## **About Business InSight 2009**

Business InSight 2009 is a dynamic new conference for the Metro Detroit business community. Small business owners, entrepreneurs, and anyone else interested in getting clear results for their business will enjoy a day of interactive, engaging conversation with some of Michigan's most successful business leaders.

#### About eScan

eScan is the world's first Real-Time Email and Webscanner for desktops and servers, developed and marketed by MicroWorld. MicroWorld Winsock Layer (MWL) is the revolutionary technology underlying the eScan product range, and bringing it several certifications and awards by some of the most prestigious testing bodies, notable among them being Virus Bulletin, Checkmark and PC Security Labs. Combining MWL technology with Multilevel Protection, eScan provides a Real-Time Proactive security to the computer systems. MailScan and X-SPAM are comprehensive email scanners for SMTP and POP3 Mail Servers.
