eScan Tablet Security for Android
Home and Small Office Edition

eScan Tablet Security is a high-end Android security solution with a well-designed user interface for securing tablet devices. It provides protection to your android-based tablet device against Malware, Trojan, and other viruses. The Anti-Theft Lock Watch feature will allow you to capture an image using front camera in case your device is stolen/lost.

Highlights

• Parental Control blocks the access to unauthorized websites and applications.
• Protects your tablet devices against malware activity.
• Keeps a check on the security level of all applications using Privacy Advisor.

Key Features and Benefits

Effective Real-Time Scanning
eScan Tablet Security for Android scans your device on real-time basis and provides protection against malware, Trojans & other cyber threats. It automatically scans all newly downloaded and installed applications on your android-based tablet device, thus keeping your device safe from malware infections.

Anti-Theft
The Anti-Theft feature of eScan Tablet Security provides security and protection to your device from any unauthorized access, in case your device is lost or stolen. It captures a photo of the current user through the front camera on failing to unlock device more than twice. The captured image will save in Lock Watch Gallery and sent via email.

Advanced Parental Control
eScan Tablet Security for Android facilitates you with advanced Parental Control features that provides an extra layer of security to your android-based tablet device. It categorizes and detects the websites that the user visits when using Android's default browser and blocks phishing or malware-infected websites in real-time. It also allows user to block the unauthorized applications.

Scheduled Scanning
eScan Tablet Security for Android facilitates scheduled scanning of your android-based tablet devices, thus providing you the best protection against evolving cyber threats. It performs scheduled scans in the background, either for all the app/apk files in the internal and external storage or the entire device at your desired time.

Privacy Advisor
eScan Tablet Security for Android comprises of Privacy Advisor that provides you the complete list of application using device permissions in a classified format. This helps you to keep a check on the security level of all applications installed.

Lock Watch
In case your device is lost or stolen, Lock Watch feature of eScan captures a photo of the user using the front camera after more than two failed unlock attempts.

Share App
This feature allows you to share eScan Tablet Security App with your family and friends using e-mail.

User-Friendly GUI
eScan Tablet Security for Android has a trendy Graphical User Interface that is designed to suit the needs of both novice and expert users. It has a sleek intuitive design that is simple and easy-to-use. eScan Tablet Security requires very less memory to operate, and hence does not affect the performance of your tablet device.

24x7 Free Online Technical Support
In order to ensure smooth computing experience, eScan provides 24x7 FREE online technical support via e-mail, live chat, and forums to all customers by experts.
